DECLARATION UNDER 37 C.F.R. 1.68

WHEREAS, I, Mark D. Horn, residing at 10508 Collett Avenue, Granada Hills, California 91344, made certain new and useful inventions and improvements for a patent application filed with the United States Patent and Trademark Office on December 3, 2003, having Serial No. 10/726,953, and entitled System and Fabrication Method for Actively Cooling High Performance Components, I made and conceived this invention while employed by The Boeing Company. The invention is related to the work I am employed to perform and was made within the scope of my employment duties, during work hours and with the use of the facilities, equipment, materials, funds, information and services of The Boeing Company. This invention was neither conceived nor first built and tested in the course of work under a U.S. Government Contract.

WHEREAS, I, Mark D. Horn declares that this invention was not made, conceived or first actually reduced to practice under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

S/N 10/726,953

WHEREAS, I, Mark D. Horn, declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
